

# PREFERRED TRAINING PROVIDER

**LifeSafety365**

Emergency Response Training

[www.lifesafety365.com](http://www.lifesafety365.com)

## Do you have a partner that keeps your team compliant and ready!

LifeSafety365 specializes in onsite health and safety training for healthcare professionals and non-healthcare staff at senior living facilities. We focus on maintaining BLS Provider CPR certification, ensuring compliance with safety regulations, and instilling confidence in life-saving skills.

While we understand you may have a training provider, we offer an alternative option tailored to your needs. Our customizable courses accommodate diverse work schedules and include CPR AED First Aid and Bloodborne Pathogens certifications for non-healthcare workers, such as home care providers.

LifeSafety365 isn't just a training center; we're your emergency response training and solution provider.

## BLS Provider CPR

**\$65**  
Per Student

Upon successfully completing the 3-hour onsite instructor-led course, students receive an AHA BLS Provider Course Completion card, valid for two years.

With a 2-year Service Agreement, you can pre-schedule onsite training as needed per quarter, bi-annually, or annually.

**Onsite training is flexible and convenient!**

## RQI-P GO for Lease

LifeSafety365 understands the challenge of scheduling your team to attend training. We have a solution for you.

The RQI-P GO simulation station has been created to enable healthcare systems to provide the **AHA HeartCode Complete** programs for BLS, ACLS & PALS. It combines comprehensive online learning with hands-on skills practice and testing, HeartCode Complete offers consistent, high-quality resuscitation training at a pace suited for every individual without an instructor.

**We'll drop the unit off to you!**

Visit our website to learn more about this cost and time-effective solution.

### Card Prices (per student):

BLS = \$65

ACLS = \$225

PALS = \$250

### Lease Rates

8 hrs. @ \$65 per hour = \$520

12 hrs. @ \$55 per hour = \$660

24 hrs. @ \$45 per hour = \$840

## Innovative Wireless Nurse Call System

We offer an easy-to-install wireless resident call system specifically designed for assisted living centers, senior facilities, and nursing homes. Using wireless pull cord transmitters, pendants, and portable alert devices, residents can initiate a call to caregivers, nurses, or staff members with exact name and location information. When a call is answered, a "cancel call" can be initiated to provide a complete record of each call event and response times.

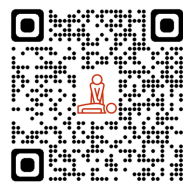

The Visiplex standard wireless nurse call system includes a variety of wireless portable and wall-mounted panic button transmitters that expand the connectivity level between resident rooms and facility staff members. Calls from resident rooms can be sent directly to a caregiver's pager, activate corridor lights, and be monitored at a central office/nurse station using wireless LED message boards.

**Request a demo** to experience the benefit of the Visiplex Wireless Solution for your facility.

## Benefits of a training partner...

- Flexible and convenient scheduling.
- Reduce the stress of sourcing a training provider.
- Receive the most engaging and current team-building training delivery.
- Preschedule training; quarterly, bi-annually, annually, or as needed.
- Card management service: receive notification on team card expiration dates.
- CPR AED/First Aid training for non-healthcare staff
- 2-year Service Agreement locks in pricing for the term.
- Priority leasing of RQI-P unit.
